

Inhalt/Contents

- Adem A, Milgram RJ: The cohomology of the McLaughlin group and some associated groups 495
- Ambrosetti A, Gámez JL: Branches of positive solutions for some semilinear Schrödinger equations 347
- Baker GA, Dodziuk J: Stability of spectra of Hodge-de Rham laplacians 327
- Bartsch T, Wang Z-Q: Periodic solutions of even Hamiltonian systems on the torus 65
- Bauer Th, Szemberg T: Higher order embeddings of abelian varieties 449
- Bérard P, do Carmo M, Santos W: The index of constant mean curvature surface in hyperbolic 3-space 313
- Bolthausen E \rightarrow van den Berg M
- Bugiel P: Ergodic properties of a randomly perturbed family of piecewise C^2 -diffeomorphisms in \mathbb{R}^d 289
- Ciliberto C, Francia P, Lopes MM: Remarks on the bicanonical map for surfaces of general type 137
- Dekimpe K: Polynomial structures and the uniqueness of affinely flat infranilmanifolds 457
- do Carmo M \rightarrow Bérard P
- Dodziuk J \rightarrow Baker GA
- Dorfmeister J, Haak G: Meromorphic potentials and smooth surfaces of constant mean curvature 603
- Eccles PJ, Turner PR, Wilson WS: On the Hopf ring for the sphere 229
- Eick B: The converse of a theorem of W. Gaschütz on Frattini subgroups 103
- Fenley SR: End periodic surface homeomorphisms and 3-manifolds 1
- Francia P \rightarrow Ciliberto C
- Gallardo L: Asymptotic drift of the convolution and moment functions on hypergroups 427
- Gámez JL \rightarrow Ambrosetti A
- Gerhardt C: Hypersurfaces of prescribed Weingarten curvature 167
- Giaquinta M, Modica G, Souček J: Composition of weak diffeomorphisms 385
- Haak G \rightarrow Dorfmeister J
- Humphries SP: A new characterisation of Braid groups and rings of invariants for symmetric automorphism groups 255
- Jarden M: Large normal extension of Hilbertian fields 555
- Kurata K: Local boundedness and continuity for weak solutions of $-(\nabla - ib)2u + Vu = 0$ 641
- LeBrun C, Nayatani S, Nitta T: Self-dual manifolds with positive Ricci curvature 49
- Lee C-N: On the unstable homotopy type of the classifying space of a virtually torsion-free group 235
- Lenzing H, Peña JA de la: Wild canonical algebras 403
- Lewis JD: The Hodge conjecture for a certain class of singular varieties 25
- Lima-Filho P: On the equivariant homotopy of free abelian groups on G -spaces and G -spectra 567
- Lopes MM \rightarrow Ciliberto C
- Madan L \rightarrow Rzedowski-Calderón M
- McNeal JD, Stein EM: The Szegő projection on convex domains 519
- Milgram RJ \rightarrow Adem A
- Modica G \rightarrow Giaquinta M
- Mortini R: On an example of J. Bourgain on closures of finitely generated ideals 655
- Nayatani S \rightarrow LeBrun C
- Nitta T \rightarrow LeBrun C
- Peña JA de la \rightarrow Lenzing H
- Peterson C, Yagita N: Rational cohomology of Witt groups 665
- Rerikh KV: Algebraic addition concerning the Siegel theorem on the linearization of holomorphic mapping 445
- Rzedowski-Calderón M, Villa Salvador G, Madan L: Galois module structure of Tate modules 77
- Santos W \rightarrow Bérard P
- Shaw M-C: Homotopy formulas for $\bar{\partial}_b$ in CR manifolds with mixed Levi signatures 113

Souam R: On stability of stationary hypersurfaces for the partitioning problem for balls in space forms 195

Souček J → Giaquinta M

Stein EM → McNeal JD

Symms J: On deformations of unions of planes in projective space 363

Szemberg T → Bauer Th

Tietz H, Zeller K: Totalvergleich und Äquivalenz der Integralverfahren von Hölder und Cesàro. Positive Operatoren 483

Turner PR: Dickson coinvariants and the homology of QS^0 209

Turner PR → Eccles PJ

Tuschmann W: Hausdorff convergence and the fundamental group (Annotation) 493

van den Berg M, Bolthausen E: On the expected volume of the Wiener sausage for a Brownian bridge 33

Villa Salvador G → Rzedowski-Calderón M

Wang Z-Q → Bartsch T

Wilson WS → Eccles PJ

Yagita N → Peterson C

Zeller K → Tietz H
